## One More Republican Campaign Lie Nailed

"To the Voters of New Mexico: Artfully and underhandedly, as is ever the practice of men who have no regard for truth and fair play, certain of my political opponents, as I have been reliably informed, are circulating the false report that I am an enemy of organized labor and pretend to prove their false statements by the fact that 'La Voz del Pueblo' does not carry at its head the union label.

E. C. DE BACA  
Democratic Candidate for Governor

"These detractors, so willing to criticize me, forget to say to union men that my competitor, Mr. Bursum, is not a union man nor does he carry the union label at the head of the newspaper 'El Herald,' reputed to be his own, nor have such republican papers as 'El Hispano-Americano,' of Belen; 'La Estrella,' of Las Cruces; 'La Revista de Taos,' the 'Santa Rosa Sun,' 'El Combate,' of Wagon Mound; 'La Bandera Americana,' the personal organ of Mr. Hubbell and owned by him; 'El Fenix,' of Clayton; 'El Nuevo Estado,' of Tierra Amarillo; 'La Cometa,' of Raton, and conspicuous among all, 'El Independiente,' of Las Vegas, the personal organ of Secundino Romero, and I am reliably informed the 'New Mexico State Record' which is the state newspaper of the republican party.

"VOZ FRIENDLY TO LABOR.  
"Here are the personal organs of the candidates for governor and United States senator, which not only have not the union label but are non-union publications, and yet only 'La Voz del Pueblo,' a paper in which I have only a small interest and whose control and policy are not in my hands is criticized and an effort is made to bias and prejudice the union men against me. The efforts of my political opponents in this regard clearly show how unfair and unjust their attack is. Those who know me will testify to the friendship of 'La Voz' and myself towards the laboring men, while it is a notorious fact that Mr. Bursum has ever been the constant representative and servant of the special interests and antagonistic to labor, as is shown by his connection with the passage of the iniquitous Hawkins law, a law so much against the interests of laboring men that it was annulled by the congress of the United States.  
"The 'La Voz' was the first among the independent newspapers of New Mexico to establish in its business the eight-hour day and has always advocated the cause of labor. It has always enjoyed the good will and high esteem of laboring men because it has been the champion of their cause and has paid good and prompt wages to its employees. Very respectfully,  
E. C. DE BACA"
